Wicker

Providing a somewhat more classic appearance than aluminum furniture, the Garden Impressions wicker collection has a strikingly natural look. The wicker effect is created by plaiting plastic string – half-round or two-half – around aluminum frames. The collection ranges from lounge and lounge-dining sofas to traditional garden dining chairs. Wicker as well as accompanying cushions come in a wide variety of trendy colours and combinations. What's more, the wicker collection is UV resistant, low-maintenance and easy to clean, and the plastic used for the wicker is 100% recyclable.

All-weather

The Garden Impressions aluminum collection features a range of all-weather benches, chairs, tables and accessories. Cushions in this range are highly water-permeable due to a combination of textile covers and Easy Dry Foam padding, or foam with waterproof outerliner. In other words, not to panic if your cushions are left out in the rain. Not using your all-weather furniture and cushions for an extended period of time? Then just store them in a dry place, so they will last you even longer.

A table for life

Centostone® is a great new material for tabletops. It is comparable to ceramics, but much more compact and therefore much harder and firmer. Centostone® is extremely durable and versatile. Due to its extreme hardness, it is resistant to scratches and heat. As the material does not absorb moisture, circles and other stains cannot form and cleaning is easy. Moreover, Centostone® is environmentally friendly, because it largely consists of natural materials and the production process is energy efficient. Centostone® is used exclusively in Garden Impressions products. Available colours: Sicilian grey, Venice white, Rome bronze, Milano brown, and Milano beige.

- Super strong
- UV and heat resistant
- Scratch resistant
- Moisture resistant

The perfect alternative to wood

Vironwood® is a specially developed synthetic material which, thanks to its natural structure, can hardly be distinguished from real (teak) wood with the naked eye. The material is extremely solid, easy to clean with lukewarm soapy water, and UV and weather resistant. Moreover, Vironwood® is very colourfast, certainly in comparison with other plastics used for table tops. Another plus is the fact that Vironwood® can be considered absolutely environmentally friendly. The material contains no harmful chemicals and is 100% recyclable. Vironwood® is used exclusively in Garden Impressions products.

- Very strong and hard
- UV and weather resistant
- Easy to clean
- Fully recyclable

studio 20

Studio 20

Studio 20 is a brand that has been a household name in exclusive and very high-quality natural stone and granite tables for years. Combined with beautiful high end table frames makes this range unique and made for a lifetime.

Lounge/dining

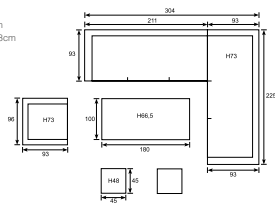

The Garden Impressions wicker Lounge/dining range is the perfect in-between solution for those who enjoy outdoor lounging as well as dining but do not wish to acquire separate sets for both pastimes. The secret is in medium height tables that are perfectly fit for all purposes, complemented by a wide choice of matching chairs. Needless to say that this clever, space-saving range has been a bestseller right from the start.

-  Water repellent
-  High quality
-  Easy to clean
-  UV resistant
