Parasols

People spend increasingly large parts of their lives outside their homes – especially in summertime, obviously. As a result, there is a growing demand for products that make those glorious garden days even more enjoyable by providing shelter from the sun. Garden Impressions has been at the forefront of this particular part of the outdoor furniture industry for years, having introduced many clever concepts and innovations. Just see what we have to offer today in parasols!

No place in the sun is complete without a parasol that can easily be adjusted to provide just the desired amount of shade in just the right spot. As it happens, Garden Impressions is a market leader in this area. A case in point, our collection includes the original Hawaii parasol, a cantilever type parasol with a host of clever functions. Besides this famous classic our massive collection features a wide variety of both cantilever and single mast types, in many shapes, sizes, and colours. Add matching granite bases and protective covers and you're all set for many perfect sunny days.
